# About Our Company

## Section 1: Introduction

**SANA Creative Systems** is a General Engineering Services Establishment, participating in Mechanical & Electrical Construction works.

**SANA** can provide the following services in a professional & safety way

- 1- MEP works services
- 2-BMS control services
- 3-Duct Cleaning services.
- 4-Testing & Balancing services.
- 5-Maintenance & Operations services.
- 6-Special medical applications services.

## Our Professional Services

### Air Duct Cleaning Service

#### Abstract:

The **SANA** teams have a procedure for duct cleaning for the Heating, Ventilation, and Air Conditioning (HVAC) system according to the **NADCA** association.

The purpose of this duct cleaning method is to remove the inert suspended matter such as foreign objects, mold, etc. duct cleaning will be done until all suspended matter and loose debris are fully removed from the ducting works.

This service is to provide all materials, labor, supervision, tools, supplies, transportation, and equipment necessary to perform a complete AC duct cleaning.

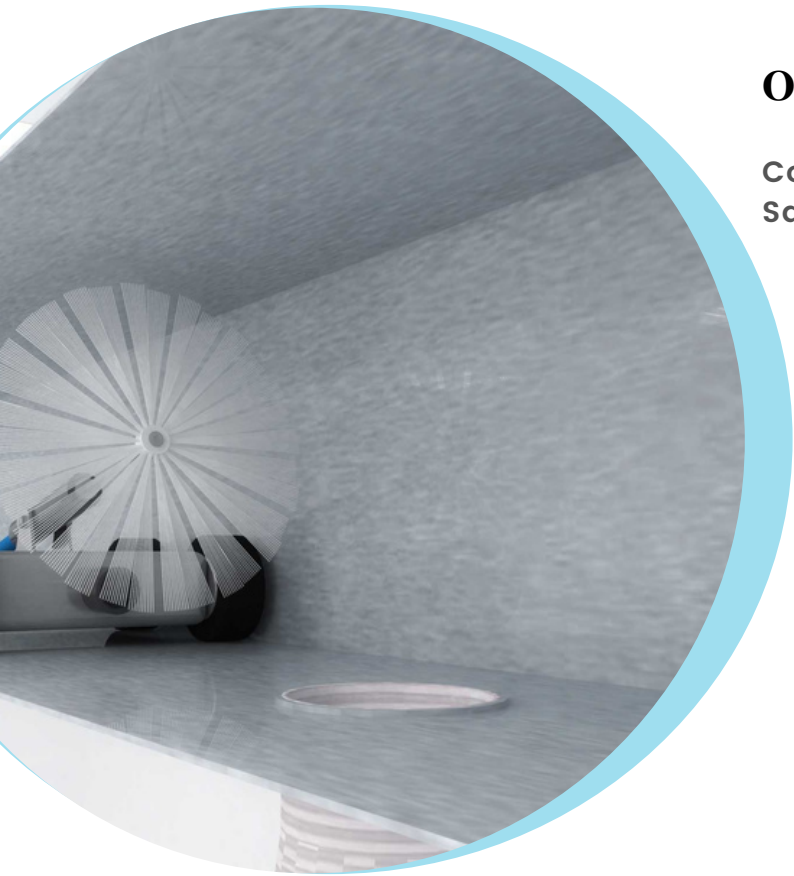

***BEFORE***

***AFTER***

*" Improve the Air Quality of Buildings with our Superior Air Duct Cleaning Services".*

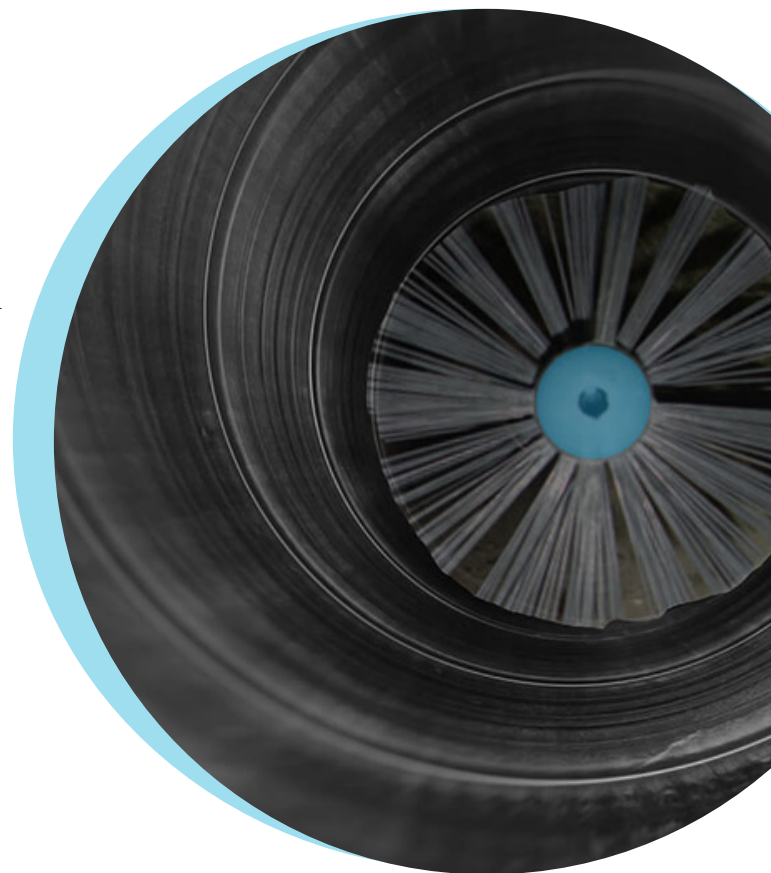

## **Our Air Duct Cleaning Processes Can Help**

**Commercial Air Duct Cleaning Services To Help Save Your Business Money**

- Improve indoor air quality
- Remove unpleasant odors
- Extend HVAC equipment life
- Provide a healthier environment for allergy sufferers
- Reduce the potential for mold growth
- Save money on energy costs

## **Why choose SANA Duct Cleaning?**

- Professional equipment Certified by the NADCA (National Air Duct Cleaning Association)
- Top-rated duct cleaning service
- Industry -leading customer service
- 100% Satisfaction guaranteed
- Experienced technicians

# Duct Cleaning Equipments

Our services use **Lifa Technologies'** high-performance air duct cleaning equipment and specialty tools physically remove dirt, debris, and other contaminants from commercial and residential ductwork systems

## Our equipment's used in duct cleaning works:

### 1- Lifa Air Special Cleaner 25 Multi Brushing Machine

The Special Cleaner 25 Multi is truly an all-purpose cleaner specifically designed for offices, schools, and hospitals.

- Removal of all dirt by brushing and air-jetting
- Foam and gel detergent spreading
- Disinfectant and liquid spraying
- Duct sealant applying

### 2- Lifa Air HepaClean 4000 negative pressure unit (NPU)

LIFA HC4000 is designed for filtering/cleaning of airborne pollutants, such as building construction dust, pulverized asbestos, quartz, mill and wood dust, etc.

- Robust construction designed for professional use; seamless metal body
- Negative pressurization of dusty working spaces or HVAC air ducts
- Wide range of filters and accessories available

# Duct Cleaning Equipments

Our services use **Lifa Technologies**' high-performance air duct cleaning equipment and specialty tools physically remove dirt, debris, and other contaminants from commercial and residential ductwork systems

## Our equipment's used in duct cleaning works:

### 3- Lifa Air Duct Cleaner Robot

Lifa Air Duct Cleaner Robot is the electric brushing robot for horizontal air ducts and industrial pipelines, The Cleaner Robot can also be used separately as video inspection robot. With the camera, it's possible to monitor the cleaning process and verify the result in real time and also record video in digital format.

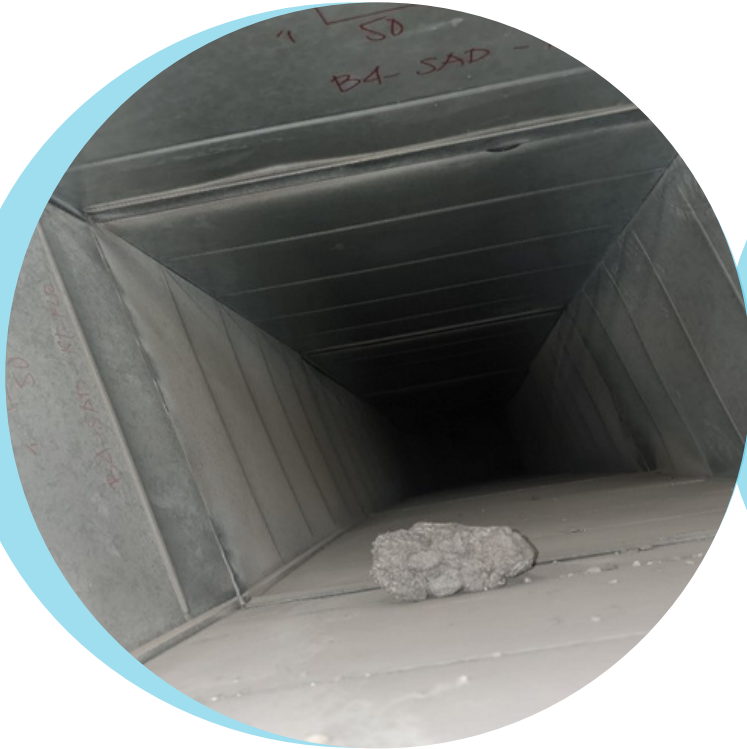

### 4-Duct Control Manual

Duct Control Manual Duct Control Manual is almost like Duct Control Mini but instead of the Duct Truck, the briefcase includes only the manually pushed Drop Camera. When the ducts are quite small or impossible for the Duct Truck robot to inspect, the Duct Control Manual is recommended.
